

Workshop

Optimal X-Rays of the Horse's Head, Head Nerve Blocks, and Tooth Extraction

Be Vet!

Akademie für tiermedizinische
Fortbildung

by Barbara Kellewald

TOPIC:

Perfecting X-rays of the equine head, performing nerve blocks, and mastering tooth extraction.

Take part in an in-depth, hands-on training session designed exclusively for veterinarians to elevate your expertise. This workshop blends essential theory with practical skills, guiding you toward becoming an expert in equine head radiography and dental care.

HIGHLIGHTS OF THE COURSE:

✓ Learn from Top Experts:

Gain insights from Charles T. McCauley, a seasoned professional with extensive knowledge and experience in equine radiography. He'll walk you through the fine points of imaging the equine head.

✓ Personalized Attention:

With limited spots available, you'll receive one-on-one instruction and plenty of practice time to sharpen your skills.

✓ Comprehensive Curriculum:

Dive into a well-rounded program featuring lectures, interactive discussions, live demos, and real-world case studies. Build the confidence and skills you need to stand out as an expert in equine radiography and dental procedures.
