TOPIC:

Two-day workshop on diagnostic imaging as a diagnostic tool for diseases and functional disorders of the equine cervical and thoracic spine.

Take part in an in-depth, hands-on training session designed exclusively for veterinarians to elevate your expertise. This workshop blends essential theory with practical skills, guiding you toward becoming an expert in imaging diagnostics.

HIGHLIGHTS OF THE COURSE:

✓ **Learn from Top Experts:**

Benefit from the expertise of Dr. Vanessa Peter. She brings extensive knowledge and experience and will guide you through the intricacies of diagnostic imaging.

✓ **Personalized Attention:**

With limited spots available, you'll receive one-on-one instruction and plenty of practice time to sharpen your skills.

✓ **Comprehensive Curriculum:**

Dive into a well-rounded program featuring lectures, interactive discussions, live demos, and real-world case studies. Build the confidence and skills you need to stand out as an expert.

THE SPEAKER

VANESSA PETER MEDVET(BERNE), DIPL.ECVDI, MRCVS

Vanessa is a Diplomate ECVDI – Radiologist, clinical director and head of diagnostic Imaging at Rossdales Equine Hospital and Diagnostic Centre in Newmarket since 2019 and has her own teleradiology consultancy PEAK since 2024.

Vanessa graduated in 2011 from the University of Bern and subsequently undertook internships at Rossdales and at a large equine hospital in Florida, USA before returning to Rossdales as an orthopaedic assistant in 2013. She has a keen interest in all diagnostic imaging modalities and is passionate about their use in the diagnosis of musculoskeletal disorders in particular.

Vanessa has published and is a frequent speaker at national and international conferences. She has a special passion for race and sport horse imaging, but still sees a mixed population of horses during her daily work. Vanessa is a very practical radiologist, who is involved with treatments, training and rehabilitation plans. Additionally, Vanessa consults on teleradiology cases from all over the world.
